Lesson One

Autumn did a fine job of identifying the standards contained in the Wisconsin Model Academic Content Standard A.2.1. She specifically stated the goal and listed and explained all the steps she would use to achieve her goal.

Autumn stated with the children's background knowledge. Throughout the lesson plan she continuously related this knowledge to the features of nonfiction that the children had been studying. Autumn's plan supports her understanding of the Wisconsin model. We discussed her lesson prior to her plan and teaching of it. She very successfully completed and executed her plan. Great job!
